Subject: RE: Chloroprene Final Peer Review Report

Thanks Maureen! See red text below. Also, can we rename the final "Final Chloroprene Post-Meeting Peer Review Summary Report"? Vicki also suggested putting the report at the top of the bulleted list.

[NOTICE] Versar, an EPA contractor, has completed the external peer review of a Report on Physiologically Based Pharmacokinetic (PBPK) Modeling for Chloroprene and a Supplemental Analysis of Metabolite Clearance (July 2020). EPA has posted the final peer review report under "Meeting Materials."

Subject: RE: Chloroprene Final Peer Review Report

Hi Dahnish,

I have good news!! The report is prepped for 508 compliance and has been added to the site, <https://cfpub.epa.gov/ncea/risk/recordisplay.cfm?deid=349015> Let me know if you have any edits to the warning text or if you want someone added to the recent additions pages for either the RISK or IRIS websites. Please provide what you would want added if this is the case. Congrats, it's live! Maureen

Subject: Chloroprene Final Peer Review Report

Hi Maureen – Attached to this email is the final chloroprene peer review report. Metadata is below. Can we get this 508'd? I anticipate we will need to post this report online the week of January 4.

- Dahnish

Title: Post-Meeting Peer Review Summary Report: External Peer Review of a Report on Physiologically Based Pharmacokinetic (PBPK) Modeling for Chloroprene (Ramboll, 2020) and a Supplemental Analysis of Metabolite Clearance (U.S. EPA, 2020)

Author: Versar, Inc

Tags: Chloroprene; IRIS; RFC; RFR; PBPK; Uncertainty
